Q31 GTAA - Do you consider this document to be sound, based on the following issues:

If you have not ticked any of the above, please give your reasons with regard to tests of soundness.:
Paragraph 2.11. We welcome and agree with the statement in paragraph 2.11 of the document that Herefordshire is meeting its own needs and has not been asked to assist in meeting Shropshire need, this being informed by discussions to consider mutual issues & joint opportunities. The recently published Shropshire GTAA evidences that the main in migration to Shropshire comes broadly from the West Midlands region of which Herefordshire is part. Paragraph 4.2 Consistency of approach to methodology and the assessment of traveller accommodation requirements assists the consideration of boundary issues and the broader understanding Traveller community needs and provision.

The use of similar methodology for assessment of accommodation need also helps to provide clarity for comparison purposes. The Shropshire GTAA, also prepared by Arc4, also takes into account turnover of pitches in calculating need for new pitches, this approach being accepted as reasonable by the Inspector in the examination of the existing Local Plan (SAMDev Plan) which was adopted in 2015. The updated Shropshire GTAA (2017 has been published on the Council's website as part of the evidence base for the review of the Shropshire Local Plan covering the time period to 2036. This GTAA has re-examined pitch supply and the role of turnover and, has responded to evidence of unusually high turnover on one site, by excluding this turnover as atypical and thereby moderating the turnover figure. This is felt to be a reasonable approach, which together with ignoring potential turnover on private sites for which no data is held, does not overestimate the likely contribution of turnover and accords with the spirit of the SAMDev Plan Inspector's previous conclusions. Table 1, paras 4.8 – 4.11 There is some mismatch in time periods quoted for the local plan period with both 2030/31 & 2031/32 specified. Paragraph 4.12. It is questioned whether there is a typo at the end of line 3 which excludes the word year and the following comments are made on the basis that the paragraph refers to the five year requirement. Additional provision of pitches which improve the qualitative offer and diversity of pitches available is welcomed. It is noted that the 5 year supply figure of 5/6 pitches relates to a residual figure (for the Plan period 2011 - 2031), rather than the immediate 5 year period (2017-22) identified in the GTAA. It is understood that Herefordshire Council have applied their own calculation of need in order to take into account residual requirements from the start of the Plan period (2011). However, it is not clear from the explanation set out in the DPD how the 5 year supply requirement, which differs from the gross figure for 5 year pitch need identified in the GTAA, is derived and it may be helpful to have more detail in this respect to aid general understanding of the approach. It should be noted that this is different to the situation in Shropshire where the GTAA base date and Plan review period are aligned at 2016 and the role of turnover has been previously accepted at Plan Examination.
