Kington	Kington	182716	Works to Trees in a Conservation Area	20/07/2018	The Vicarage, Church Road, Kington, Herefordshire, HR5 3AG	Proposed works to T1 Copper Beech - This is a nice tree but;unfortunately it has very extensive Ganoderma adspersum presence. It;is showing signs of dieback in many areas of the tree and the foliage;is far smaller than it should be. I feel that the tree is in decline;and based on the amount of brackets present, I would estimate that the;integrity of the main stem is severely compromised. Given that the;driveway, garden, vicarage and hall are all regularly used by many;people from young children up to large groups of pensioners for;outings, I think the only safe option is to remove the tree.
