

Herefordshire Community Climate and Nature Grant Scheme Theme 2: Sustainable Transport Guidance Sheet

Aims

Aims to reduce the reliance on car travel, encouraging walking, cycling and low carbon transport.

Project Examples

Active Travel

- Cycle parking - see guidance notes

Other

- There are other non-cycling projects that you may wish to apply for.

Assessment

In addition to the general assessment criteria (see general information), applications for sustainable transport projects will also be assessed on the following points:

- Active Travel initiatives – we will be looking for those that have an implementation plan to demonstrate how they will encourage more people to walk or cycle once any new structures are installed. We would also expect any application to be able to demonstrate that there is a need and a demand for the initiative.

If you a Parish or Town Council interested in Electric Vehicles Charge Points, please refer to the EV guidance sheet.
