

Herefordshire Community Climate and Nature Grant Scheme

Theme 4: Other - Guidance Sheet

Aims

We are looking to fund a variety of 'other' projects for schemes that don't fit into the main three themes. These projects must aim to achieve the overarching objects of the grant scheme of reducing CO₂, increasing biodiversity and achieving community engagement.

Project Examples

Sustainable food and food waste events
Training & education
Community recycling and waste reduction initiatives

Assessment

- The assessment of these projects will be project specific and must be stated on the application form.
- Projects will be assessed against these specific criteria as well as the general assessment criteria.
- Please demonstrate how your project fits with the priorities and action plans of [Zero Carbon Herefordshire](#) and/or your local parish/neighbourhood plan.
